NEW DAWN

Zero Pressure Sores! Wake up to the most exciting development in pressure area care for years! Just think - you can **prevent** pressure sores developing and give **therapy** to any pressure sores - even the most severe grade. To be this effective you can deliver zero pressure[1] frequently and for longer[2]. Your patients will be comfortable on the ergonomically designed system so they can meet the new day refreshed. With this system you will have optimum user friendliness with automatic adjustment for patient characteristics and a high technology Patient Management Unit. A system that is easy to clean and tailored to your needs. It's the **Cairwave Therapy System**. A new dawn for pressure area care.
